Ducted Vacuum Systems

for a *Cleaner & Healthier Home*

OUTPERFORM THE PORTABLES

Most portable cleaners will exhaust dust particles and odour back into the areas they have just been cleaning!

Install an AstroVac system and simply plug in the lightweight flexible hose and

Your ducted vacuum system will quietly remove dust and particles via a rigid PVC pipework run back to a power unit positioned in the garage, plantroom or external wall.

Breathe easier ... as your AstroVac system quietly and efficiently reduces the air-borne dust levels ...

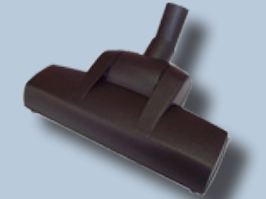

ACCESSORIES:

Hard Floor Tool #1307

Designers & Manufacturers of Ducted Vacuum Systems for over 40 years
 ABN : 35 004 840 402

CLEANER
HEALTHIER
EFFICIENT &
EASY TO USE

HEAVY DUTY
DELUXE SYSTEM
AUSTRALIAN MADE
2 YEARS WARRANTY

DL1500B

FEATURES:

1. Powdercoated galvanized metal ducted vacuum unit
 - Provides greater strength and durability
 - Better heat dissipation, prevents motor and other components from overheating
2. High performance 145mm triple stage tangential motor
 - Delivers higher vacuums than standard double stage or single stage motors
 - Better air separation, hot air separated and exhausted out of the unit
3. Use of disposable filter bags
 - Maintains high suction
 - No dirty filter or bags to clean
 - Easy to empty - bin simply unclips from top half of unit allowing bag to be removed with no mess
 - Does not exhaust dust back into the garage
4. Patented Astro-Airliner design
 - Higher efficiency
 - Improves air flow
 - Guarantees longer motor life
5. Right & left entry points for connection of ducting pipe to unit
6. Efficient space saving design, unit can be mounted higher on wall than traditional ducted vacuum units
7. Provision for muffler to reduce noise level
8. Provision for utility/garage inlet
9. Single printed circuit board control module complete with:
 - On/off switch for operating inlet point on power unit
 - Terminals for extra low voltage remote connections for inlet points inside house
 - IEC type socket and lead for power mains connection
 - Dual LED technology status indicators for visual standby and operating models
10. EMI compliant to AS/NZS 1044
11. Australian made and owned company

SPECIFICATIONS:

Parameter	Value
Air Watt	517
Input Power	1500 Watt
Sealed Vacuum (Water Lift)	3302 mm
Air Flow at 48mm	54.6 Litre/second
Noise Level at 3 metres	70 dBA
Dirt Capacity	30 Litres
Filtration	Paper Bag
Dimensions	850 x 300 mm
Weight	15 Kg
Fan Stages	3
Fan Diameter	145 mm
Motor Speed	22000 RPM
Approx. Motor Brush Life	400 hours
Motor Manufacturer	Ametek Italia
Recommended House Size	350 M2
Maximum Pipe Run	55 Meter
Number of Inlets	4
Motor Warranty	2 years
Other Electrics	1 year

9M, 10.5M or 12M Switchable Hose and Deluxe Tool Set

Plastic/Plated Slimline Wall Inlets
